Thanks for the comments and the timely review.

By the way, the phrase "bottom up" is the phrase used by the authors and they put it into the title of their paper.

In case any of you want it, I'll also attach here a copy of the Starr paper.

David

Subject: Letter to editor in clearance

Hi all: I just cleared this through STICS but had a couple of edits. There is also one important place where I don't think the text is really clear. See what you think about that. I put notes in each place to explain my logic!
I am ccing Debra as the package goes to her next.
Lynn
